The image contains two separate line graphs, each with a solid black line and a dashed grey line, set against a white background with a thin black border. The top graph's solid line starts at a low point on the left and rises steadily to a high point on the right. The dashed line starts higher than the solid line and also rises steadily, staying above the solid line throughout. The bottom graph's solid line starts at a medium point on the left, rises to a peak, and then continues to rise more slowly. The dashed line starts lower than the solid line and rises steadily, eventually surpassing the solid line's peak and continuing to rise.
